

## Triage Personnel

Supervised By: Initially CERT Trainer, then Triage Unit Leader

Subordinates:

Function: To triage patients on-scene and assign them to appropriate treatment areas.

Duties:

1. Check-in and obtain briefing from Supervisor.
2. Report to designated on-scene triage location.
3. Triage and tag injured patients. Classify patients while noting injuries and vital signs if taken.
4. Direct movement of patients to proper Treatment areas.
5. Provide appropriate medical treatment (ABCs) to patients prior to movement as incident conditions dictate.
